Worley's Fine Fruit Trees

Plant America!

MASSACHUSETTS TRUENESS-TO-NAME INSPECTION SERVICE

Statement of Inspection for Trueness-to-Name

Amherst, Mass., July 20, 1954.

All of the Apple, Pear, Plum and Sweet Cherry varieties propagated and now growing in the nurseries of Worley's Nurseries, York Springs, Pennsylvania, have been examined by the Massachusetts Trueness-to-Name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row.

MASSACHUSETTS TRUENESS-TO-NAME
INSPECTION SERVICE

Worley's Nurseries

YORK SPRINGS, PA.

To Our Customers,

Those of you who have been dealing with our nursery during the past forty years that we have been in business, need no assurance as to our reliability. It is our policy of treating our customers just like we would like to be treated ourselves that has caused Worley's Nurseries to grow by leaps and bounds to the point that it is now one of the largest fruit tree nurseries in the East.

When you buy fruit trees from us, you will be sure of getting our own production. If we are unable to fill your order with our own trees we will ask you if we are to purchase them for you before filling your order.

I help and oversee the packing of each order, giving it my special attention whether large or small, in order to be sure each customer gets exactly what he wants.

I am always glad if you can come to the Nursery for your trees, this makes it possible for each of us to go over every item together while the order is being filled.

Our Nursery is located along U. S. Highway Route 15, about 16 miles from Gettysburg and about 21 miles from Harrisburg. When on this road just look for the white barn with our sign on it.

OUR GUARANTEE

We guarantee every tree to be as represented in grade and quality and if on arrival you do not find our trees to be exactly as we say they are, return them to us securely packed and in good condition and we will return your money immediately.

We offer only the finest select disease free true-to-name fruit trees. We guarantee every plant to start to grow, if properly planted and cared for according to the instructions in this catalogue and the ones you will receive with each shipment.

We will replace any tree which does not perform according to the above guarantee at one-half the purchase price providing you mail us a report on or before August 1 on shipments made the preceding fall or spring stating that you have given the trees proper care.

Send copy of order on which replacements are being made when requesting a replacement.

YOUR RESPONSIBILITY—Worley's fruit trees need comparatively little care due to the excess vigor and root system we have cultivated in them. But they must be given fertile soil, sun and water, and proper cultivation to keep them vigorous. Follow our planting instructions and you will be rewarded with an abundance of fresh profit-making fruit in a short time.

The greatest of care is taken to have all fruit trees and other nursery stock that we sell true to label. We believe that no other nursery takes as great a precaution as we do in this serious matter and any proving not so will be replaced upon proper proof. It is mutually agreed between us and the purchaser that in no case shall our maximum responsibility exceed the original amount paid.

- > Red Spy
- > Northern Spy
- > Super Red York
- > York Imperial
- > Super Red Stayman
- > Stayman Winesap
- > DbL. Red Rome Beauty
- > Rome Beauty
- > Turley Winesap

Pollination—Varieties such as Red McIntosh, Red Gravenstine, Red Spy, Red Delicious, Red York, and Stayman set little fruit without a pollinator. Good varieties to use for pollination are: Cortland, Macoun, Wealthy, Grimes Golden, Yellow Delicious, Lehigh Greening, and Rome Beauty. The best all around pollinator is the Yellow Delicious.

SPECIAL

This year as in the past we have several hundred apple trees that were damaged. We sell these trees, that we feel sure will grow, at one-half price. We also guarantee them true-to-name and to grow, if they do not grow we will replace them with other trees and deduct the amount you paid for the damaged ones. We will not ship any of these trees, because we want you to see them before you buy.

Pollination—With the exception of J. H. Hale, all the varieties we offer are self fruitful.

Peach Tree Bore Control—

DDT has proven very effective for control of peach tree borer. Applications are made to the trunk of the tree (from first limbs to ground) being sure to get good coverage. Two applications are recommended, one in July, the second in August (consult State authorities for timing). We recommend Liquid 30 DDT, 1 gallon per 100 gallons of Spray for best results. 50% Wettable Powder may also be used at the rate of 6 to 8 lbs. per 100 gallons of spray.

PEAR TREES

(1 and 2 Year Trees)

<i>Prices Per Tree</i>	<i>1-9</i>	<i>10-49</i>	<i>50-99</i>	<i>100 to 250</i>
5 to 6 ft.	\$2.25	\$1.85	\$1.25	\$1.00
4 to 5 ft.	1.90	1.70	1.00	.85
3 to 4 ft.	1.50	1.25	.95	.75
2 to 3 ft.	1.25	1.00	.85	.65

LIST OF STANDARD VARIETIES

- | | |
|--------------------|-----------------|
| ✓ Bartlett | ✓ Seckel |
| ✓ Clapp's Favorite | ✓ Worden Seckel |
| ✓ Kieffer | ✓ Waite |
| ✓ Sheldon | ✓ Anjou |
| ✓ Gorham | ✓ Buerre Bosc |
| ✓ Lincoln | ✓ Lawrence |
| ✓ Comice | ✓ Orient |

Pollination—With pears two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

TO CONTROL FIRE BLIGHT IN PEAR TREES

Do not cultivate any more than necessary, just keep the sod dug away from the tree, and avoid excessive fertilization, especially ones containing a high amount of Nitrogen. Also spray the tree during full bloom with a 2-6-100 Bordeaux solution, or Diathane, according to manufacturer's direction. Do not add an insecticide to this spray, so you do not kill the bees.

Cherry Trees

Cherry trees will not thrive on flat or wet land. The soil must be dry. It might be light sand or clay loam, or any soil between these. The only stipulation is dryness.

Also another important fact about cherry trees is the rootstock; namely, the Mazzard and Mahaleb. The Mazzard is the old type rootstock that your father and grandfather would graft. These are natural sweet cherry roots and live over a long period. The other is the Mahaleb, the imported sour cherry root. This rootstock is standard for sour cherries but when sweet cherry varieties are budded on this root they usually have a shorter life than when budded on the Mazzard rootstock.

Sweet Cherries

VARIETIES

✓ Governor Wood
 ✓ Black Tartarian
 ✓ Napoleon-Royal Anne
 ✓ Bing

✓ Schmidts Biggereau
 ✓ Windsor
 ✓ Lambert
 ✓ Yellow Spanish

SWEET CHERRY TREE PRICES

Extra Large Size	3.00		

Sour Cherries

The Musselman strain of Montmorency—Virus free Third Generation.

This strain of Montmorency was selected from the C. H. Musselman Company orchards and planted by the Pennsylvania State College Agricultural Experiment Station at Arendtsville, Pennsylvania, for the sole purpose of obtaining an orchard that is absolutely free of virus diseases. In this way they are able to supply the more progressive nurserymen with budwood free from the dreaded virus diseases and also with a true-to-name strain of Montmorency that is superior to all others. It is from this orchard that we obtain all our budwood for our sour cherries.

We grow no other variety of sour cherry because there is no reliable source of virus free budwood for these other varieties and this way we eliminate chances of contamination in the nursery.

SOUR CHERRY TREE PRICES

Worley's Selected Strains

<i>Prices Per Tree</i>	(1 and 2 yr.)		100
	1-9	10-49	50-99 to 250
4 to 6 ft. 11/16	\$2.40	\$1.85	\$1.25 \$1.00
3 to 4 ft. 9/16	2.00	1.75	1.05 .90

1½ to 3 ft. 5/16	1.50	1.30	.85 .70

Plum and Nectarine Trees

(1 and 2 Year Trees)

<i>Prices Per Tree</i>	<i>1-9</i>	<i>10-49</i>	<i>50-99</i>	<i>100 or More</i>
5 to 6 ft.	\$2.25	\$1.85	\$1.25	\$1.00
4 to 5 ft.	1.90	1.70	1.00	.85
3 to 4 ft.	1.50	1.25	.95	.75
2 to 3 ft.	1.25	1.00	.85	.65

LIST OF PLUM VARIETIES

✓ Fellenburg (Italian Prune)	✓ Shiro
✓ Stanley Prune	✓ Methley
✓ German Prune	✓ Santa Rosa
✓ Bradshaw	✓ Satsuma
✓ Pacific Prune	✓ Wickson
✓ Shropshire Damson	✓ Pond Seedling
✓ Demonford	✓ Grand Duke
✓ Yellow Egg	✓ Red June
✓ Burbank	

NECTARINE VARIETIES

✓ Hunter—Yellow	✓ Sure Crop—White
-----------------	-------------------

POLLINATION OF PLUMS—With the exception of Stanley, which is self-fruitful, all the prune plums should be inter-planted to insure a good set. Of the other varieties, Burbank, Shiro, Red June and Methley each can be planted by themselves, but you will receive better results if two or more varieties are inter-planted.

POLLINATION OF CHERRIES—Governor Wood, Black Tartarian, Windsor and Yellow Spanish can be planted by themselves. The other varieties are self-unfruitful and must be planted along with one of the above named varieties. The best variety for pollination is the Black Tartarian.

Chinese Chestnuts

✓ Ching Chow—A truly blight resistant strain, probably more so than any others. The trees grow fast, and are heavy producers of big tasty chestnuts the second or third year after planting. The tree is also very suitable for ornamental purposes. Plant in pairs for cross pollination.

Shade Trees

Decorative and Flowering Trees

Kwanzan Flowering Cherry

The kind that is planted at Washington, D. C. Double Flowering, dark pink, blossoms in early spring. **Price—4-5 ft., \$4.00 each; 5-6 ft., \$5.00 each.**

Hopa Flowering Crab

An ornamental tree producing an abundance of bright red flower clusters in spring. **Price—4-5 ft., \$3.50 each.**

Bechtel's Double Flowering Crab. Still the finest of the flowering crabs. The tree is of medium size, covered in early spring with large fragrant, double flowers, pink in color. **Price—3-4 ft., \$3.00 each; 4-5 ft., \$3.50 each.**

Paul's Scarlet Hawthorne. Produces masses of double scarlet flowers in spring. The tree is vigorous and hardy, it has a yellowish green bark. A very showy shade tree. **Price—5-6 ft., \$4.75 each; 4-5 ft., \$4.00 each.**

European Mountain Ash. A very attractive, hardy tree, which bears clusters of scarlet berries from July to winter. **Price—5-6 ft., \$4.75 each; 4-5 ft., \$4.00 each.**

Cutleaf Weeping Birch. Has an attractive white bark, light green leaves which are finely cut and has long drooping branches. **Price—5-6 ft., \$5.00 each; 4-5 feet, \$4.25 each.**

Schwedler Maple. Similar to the Norway Maple except the leaves are a bright red in spring and turn to a purple in late summer and fall. **Price—4-5 ft., \$4.00 each; 5-6 ft., \$4.75 each.**

Norway Maple. Large green leaves. Tree very vigorous, an excellent shade tree. **Price—4-5 ft., \$3.00 each; 5-6 ft., \$3.75 each; 6-8 ft., \$4.50 each.**

Crimson King Maple (Patent No. 735). Red leaf, truly the King of all maples. A maroon or red leaf tree which maintains its color throughout the summer. **Price—5-6 ft., \$6.25 each.**

Sprays - Fertilizers

Now an All-Purpose FRUIT SPRAY or DUST

We can now offer to our customers a complete spray to use against insects and diseases of apple, pear, peach, plum, cherry, and grapes. The fruit gardener will not need to bother about mixing all different spray materials for just a few trees. This will take care of all his fruit trees throughout the summer; however, it will not replace the dormant spray. Easy to follow directions for use are included on each package. **Price—\$1.25 per 2 lb. package.** Enough to spray 5 trees for an entire season.

MILLER'S V. H. P. F.—Here is a soluble plant fertilizer with quick growth giving plant hormones, that will greatly increase the growth of your trees and plants.

One gallon of this solution applied to each fruit tree will do wonders. It can be used on any growing plant. Three lbs. is enough to make 50 gallons of readily available plant food. **Price—3 lb. bag \$1.50.**

RA-PID-GRO—Here is a completely soluble fertilizer easy to use on all types of trees, vegetables, berries, farm crops, evergreens and lawns. Ra-pid-gro is shipped in dry form and all you do is add water and apply to the base of the plants or spray it on the foliage. Ra-pid-gro, applied to the foliage, enters the sap stream at once supplying immediately a completely balanced food formula containing all of the known chemicals, trace elements and vitamins necessary for growth and production and for a vigorous healthy plant life. If interested in more information about Ra-pid-gro, write us for latest literature.

Price— 1 lb. Package	\$ 1.25
5 lb. “	4.50
25 lb. “	21.00

ORDER EARLY. To avoid the usual rush at shipping time, place your order early as it enables us to save for you the varieties ordered, and you are assured of getting varieties wanted.

All packing will be done in boxes or bales, thus protecting the roots and trees in shipping. No extra charge is made for packing.

All shipments are delivered to shipping point, Dillsburg, Pa., without additional charge.

The spring shipment of nursery stock begins about March 15 to April 1 and fall shipments about November 15, depending on the season.

TERMS: Cash with order or a 25% deposit required with the order, balance due ten days before delivery. We will ship C. O. D. on request, buyer to pay C. O. D. charges. We cannot accept C. O. D. orders without a 25% deposit.

Please Note—If you live in Pennsylvania add one per cent of your total to cover sales tax.

A certificate of nursery inspection issued by the Commonwealth of Pennsylvania will accompany each shipment of nursery stock sold by us.

Plant Worley's

Extra Large

FRUIT TREES

This year we are able to supply our customers with extra large size fruit trees in peach, apple, sweet cherry, sour cherry and pear trees. Many of these trees will bear the following year after planting if properly planted and cared for. All of Worley's extra large fruit trees are extra-select, well-rooted, well-branched and hardy disease free. Prices for all varieties are \$3.00 each or \$25.00 for ten.

. . .

Flowering and Evergreen Shrubs

Wigela Eva Rathke. Blooms bright red flowers in May and intermittently until late fall. Dwarf grower. **Price—**2-3 ft., \$1.50 each.

Spirea Billiardi. Blooms entire season. The spikes are large pink and suitable for cutting. **Price—**2-3 ft., \$1.20 each. We also have the purple typed Spirea, just like the above, but the flowers are purple. Same price.

Hydrangea P.G. Pyramids of creamy white flowers, which are tinged with pink in late summer. **Price—**2-3 ft., \$1.25 each.

Deutzia, Pride of Rochester. A shrub with masses of double white flowers. **Price** 2-3 ft., \$1.00 each.

Spirea Anthony Waterer. A dwarf dense shrub, which bears flat clusters of rose pink flowers all summer. **Price—**18-24 in., \$1.25 each.

Euonymus Patens. A compact shapely evergreen shrub, with attractive, glossy, dark green foliage and bright berries. **Price—**12-18 in., \$2.00 each.

Japanese Holly. Dense, compact evergreen bush, with oval dark green glossy leaves, small black berries. **Price—**12-18 in., \$2.25 each.
